Azeez Adeyori Adio
Software Engineer| DevOps Engineer | Cloud Engineer
Ibadan, Oyo State, Nigeria | +234-806-437-4020 | adioadeyoriazeez@gmail.com | linkedin.com/in/adeoriazeez

Professional Summary

I'm a Senior Full Stack Developer with 7+ years of experience in tech field, I have used several technologies such as JavaScript, PHP and Python. I led the development of a leaning management, ecommerce and Finance application system, which reduced administrative overhead by 30% and increased monthly active users by 16%. I've also crafted innovative solutions for industries such as fintech, e-commerce, and learning management applications. I continually expand my skill sets to deliver exceptional results.

Skills

DevOps Skills: Docker, Kubernetes, CI/CD Pipelines, Jenkins, Git, GitHub, GitLab, Terraform, Terragrunt, Ansible, Puppet, Chef
Monitoring Tools: Prometheus, Datadog, Grafana
Cloud Platforms: Azure, AWS
Front-End: HTML5, CSS3, JavaScript, React.js and Bootstrap
Back-End: Node.js, Express.js, Flask, PHP, RESTful APIs
Databases: SQL, NoSQL, PostgreSQL, MySQL, MongoDB, SQLite, Redis
Programming Languages: JavaScript and Python
Development Practices: API Development, Microservices Architecture, Agile Methodologies, TDD Unit Testing, Integration Testing
Soft Skills: Leadership, Communication, Collaboration, Problem-solving, Time Management

Work Experience

Senior Node.js Developer (Remote) *Codeflare LTD, Abuja, Nigeria*
— Aug 2024 – Present

- Developed **high-performance, scalable Node.js applications** improving system efficiency by **37%**.

- Implemented **caching strategies** using Redis and **queueing systems** with Bull, reducing **84%** of database queries and improving response time by **55 seconds**.

- Created and managed **CI/CD pipelines** using Azure DevOps to automate deployment of APIs to Azure Web App, achieving a **100% bug resolution rate** for deployment-related issues.

- Improved application memory usage by **20%** through advanced **code refactoring** and **profiling techniques**.

Azure DevOps Engineer (Remote Part-time) *xFusionCorp*
— Mar 2021 – June 2024

- Designed and implemented **customer-driven solutions** on Azure and AWS.
- Automated **CI/CD pipelines** using **Terraform** and **Azure DevOps**, increasing deployment efficiency by **40%**.
- Managed cloud infrastructure, optimizing **performance and security** for **Azure** and **AWS** environments, reducing operational costs by **20%**.
- Monitored AKS clusters by creating **custom Grafana alerts** for real-time insights and issue detection.
- Automated deployments using **ArgoCD** for **containerized applications**, cutting deployment time by **50%**.

Full-stack Engineer (Onsite Full-Time) *Bonjourex*
— Jan 2017 – Apr 2024
- Led a team in designing and implementing **Application**s and IT **infrastructure** with **AWS** and **Azure**, resulting in a **30% performance improvement**.
- Develop several API for e-commerce and chat-app with Python, PHP and NodeJS
- Deployed **cloud solutions** and applied **DevOps practices** for **infrastructure provisioning and application deployment**, reducing downtime by **25%**.
- Developed **high-availability architectures** with **Terraform** on Azure.
- Configured **monitoring systems** using Prometheus and Grafana for tracking performance metrics and system health.

DevOps and Cloud Engineer (Remote Contract)
General Dynamics — Sep 2020 – Sep 2022
- Built and deployed applications on **Apache, Nginx, Tomcat**, and **WebLogic** for **cloud infrastructure**.
- Set up and managed **Kubernetes clusters** using **AWS EKS**, reducing downtime by **15%**.
- Automated **infrastructure provisioning** with **Ansible** and secured environments using **Ansible Vault**.
- Managed **Azure infrastructure** with **Terraform** and **ARM templates**, achieving **99.9% uptime**.

Cloud and Systems Engineer (Remote Contract)
Biyawa — Sep 2022 – Sep 2023
- Engineered **CI/CD pipelines** on **AWS** using **ArgoCD** and **Gitea**, increasing deployment speed by **50%**.
- Managed **system resources** like disk and CPU utilization, improving resource efficiency by **25%**.
- Implemented **AWS IAM policies** to ensure **secure access control** for cloud resources.
- Configured **DevOps tools** including **Jenkins**, **SonarQube**, and **Docker**, streamlining code quality checks and deployments.

Education
Obafemi Awolowo University, Osun, Nigeria *B.Sc.*
Biochemistry, Graduated March 2015

Certifications
- Certified DevOps Foundations | LinkedIn Learning, 2024
- Certified SE and DevOps | ALX, 2024
- Certified DevOps Engineer | SkillUp by Simplilearn, 2022
- Python Programming Beginners' Bootcamp | OpenWave, 2022 •   PHP Test | TestDome, 2022
